

G.O. 113.
Dec.
1903.

CLOTHING.

New Pattern Cap, Royal Marines.

1932.
1903.

The ornament is to be worn on the front of the new pattern cap and will be fastened in the centre in a position allowing about one half of the ornament to appear on the red patch, and the other half on the front piece of the cap. The top loop at back of grenade will be fastened through the patch and the lower loop through

GO 113
1903

185

the front of cap, R.M.A. The two loops of the R.M.L.I. ornament will be fastened through the red patch immediately above the blue front piece.

The cap will be marked with the man's name and register number across the inner lining of the crown, the patch being marked at the back with the register number only.

The white cover will be marked with the man's register number (not name) on the inner side of the double band round the cover, the number (thus "Po. 6391") being placed immediately after the inspection date, &c.

Whenever caps are forwarded to H.M. Ships for issue as annual clothing they are to be fitted up complete with patch, ornament, and white cover before being packed for shipment, care being taken that the instructions contained in Clause 32 (k) of the Instructions to Part I. Establishment are complied with.
