

324 WEARING OF BLUE AND GREEN BERETS—WARNING ORDER

Revised regulations for the wearing of blue and green berets will be published by Admiralty Fleet Order towards the end of November. The revision will lead to a wider wearing of the green beret by officers and other ranks and it will not, as at present, restrict its wear to Commando Formations or Units.

2. The above information should be borne in mind by officers and other ranks who are fully trained and who may require to purchase a replacement blue beret before the publication of the revised instructions.
