### INSTRUCTIONS

- Answer any of three Items.
- Section A is Compulsory
- Choose one item from B

SECTION A  
(This Section is Compulsory)

ITEM.1

Trade and commerce is the back bone of modern economic of the world. Your mother and other business people fly from Uganda and go to countries such as China, Dubai, Japan and Europe among other to trade in commodities such as clothes, vehicles and electronics among others. However your mother complains that trade has almost become impossible due to high taxes, unfavorable transport means among others. As a result, so many business have closed in various parts of Uganda Government seeks to end these challenges and you have been contacted.

Task.

Advise the government on how the above can be solved so that you mother and other business people can be helped.

ITEM.2

The opposition leader of many government in Africa think that only way to remove the government from power is through strikes and demonstrations. The masses that join the who are most times youths tend to destroy the properties of these people the they think support the government in power. This in the end causes political un rest which influences the police and other security agencies to interfere with preventive measures like use of tear gas arrest and detentions among others

Task.

Which other measures can the youths use?

SECTION B  
(ATTEMPT ONE ITEM)

ITEM.3

In 2012, the government of Uganda decided to look for a loan of about 2-3 trillion shillings in order to rehabilitate the standard meter gauge railway to reduce traffic congestion. Facilitate business among other reasons. Many Ugandans opposed the government idea claiming that it was of little help yet other sectors such as agriculture are hungry for money. The government insisted and secured some 1.1 trillion shillings from the African development bank and started rehabilitation

Task.

Advise the government on the measures that can be taken to make Uganda a self reliant economy.

ITEM.4

The government of Uganda developed an agenda to empower the youths who constitute a bigger percentage of the total population. The youths are considered to be future leaders of the country. However, many youths are either unemployed or involved in simple jobs and yet have a desire to live luxurious and comfortable lives. This has prompted many youths to be involved in crime and to be used by individuals seeking personal interests.

Task.

Show your fellow youths proper direction of serving their Country.
